

Let's Get Covered NYC

what we do

Our New York State of Health certified Navigators provide assistance and enrollment services for Medicaid, Child Health Plus, and Qualified Health Plans. To reduce lapse in coverage, they also support and complete insurance renewals.

Our well trained Navigators assist in plans for individuals, families, and small businesses with special needs, such as HIV/AIDS, gender affirmative care, and mixed immigration status.

Navigators also assist in completing and submitting SNAP applications.

the extra mile

Navigators are equipped with mobile technology and lead enrollment and educational activities anywhere! From schools to consulates, you can find a Navigator ensuring that all New Yorkers are covered.
